

## School Need: Increase Student Achievement

### Why Sound Helps:

- Helps make sure every word is understood
- Increased speech clarity and phonemic awareness
- Helps children maintain focus

### The FrontRow Difference

- ✓ Dual-mic design
- ✓ Feedback suppression
- ✓ OptiVoice
- ✓ Student-Mic

## School Need: Assist Special Education/ESL

### Why Sound Helps:

- Clear phonemic sounds ensure words are heard clearly
- Helps with speech perception challenges
- Even coverage means every child can hear no matter where they're seated
- Supports main-streaming

### The FrontRow Difference

- ✓ Dual-mic design
- ✓ Feedback suppression
- ✓ OptiVoice
- ✓ Student-Mic

## School Need: Increase Student Engagement & Participation

### Why Sound Helps:

- Increases student participation
- Build student presentation skills and self-esteem
- Brings out shy students
- When used as a 'talking-stick', mic supports turn-taking

### The FrontRow Difference

- ✓ Designed for children's small hands
- ✓ Lightweight and comfortable
- ✓ Energy Star qualified charger
- ✓ SmartCharge
- ✓ Drop-in charger

## School Need: Teacher & Student Amplification

### Why Sound Helps:

- With over 45% requiring listening, teacher and student amplification is vital
- Teacher amplification helps ease teacher vocal fatigue
- Student amplification encourages participation and increases engagement

### The FrontRow Difference

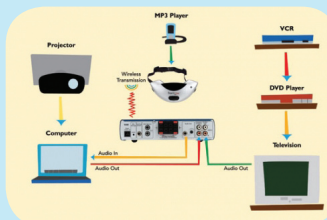

- ✓ FrontRow mics
- ✓ Designed for the classroom
- ✓ Easy to reach mute button
- ✓ Dual mic coverage

## School Need: Media Integration

### Why Sound Helps:

- Becomes audio center of the classroom
- Ties together all other classroom technology
- Amplifies and clarifies multi-media curriculum
- Provides even and clear coverage, no matter where the student is seated

### The FrontRow Difference

- ✓ Simple user interface
- ✓ Full stereo sound
- ✓ Uses 60% less energy than other systems

## School Need: Technology for Tech-Resistant Staff

### Why Sound Helps:

- With over 45% requiring listening, teacher and student amplification is vital
- Teacher amplification helps ease teacher vocal fatigue
- Student amplification encourages participation and increases engagement

### The FrontRow Difference

- ✓ One-touch operation
- ✓ 10 minute training
- ✓ Simple user interface
- ✓ 30% lighter microphone
- ✓ Easy-to-reach mute button
