Classroom & Campus Communication Solutions

Speech intelligibility in the classroom

Children do not hear like adults do and can miss up to 25% of what their teacher is saying. They learn better when their teacher's voice is evenly amplified and distributed throughout the room. Our classroom audio distribution systems increase listening comprehension for developing brains so they understand and retain more.

School-wide emergency communication

FrontRow's Conductor platform is central to any school's Emergency Preparedness Plan for seamless school-wide communication during a weather emergency, lock down, lockout or general evacuation

Remote Learning at its best

FrontRow works seamlessly with popular video conferencing solutions for hybrid, synchronous, or asynchronous learning. Regardless of physical location, every student can hear the teacher or multimedia and participate in instruction equally.

Media management made easy

Educators are using instructional content from a wide variety of sources these days, but managing them all takes time away from students. FrontRow makes classroom management easy by consolidating everything into a single interface.

Flexible scheduling for a connected campus

Keeping your campus running like a well oiled machine takes communication. Whether it's updating bell scheduling, paging in specific campus zones, or calling a classroom to send little Billy back to the office because he forgot his backpack, FrontRow combines bells, paging, and intercom into an intuitive IP-based communication platform.

ezRoom

Classroom voice amplification, AV control, remote management, school paging, and alerts.

ezRoom simplifies classroom management and enhances classroom communication. From voice amplification to AV control, this “everything but the display” solution seamlessly integrates all your classroom technology into a single, easy-to-use system. When combined with Conductor, ezRoom room goes beyond the walls of the classroom to become a part of your campus-wide communication system.

Designed to fit any classroom

Enclosure Options

ezRoom PlenumCore

PlenumCore lets you add as many speakers as needed to the practically invisible in-ceiling system.

ezRoom Trio

Trio offers an all-in-one solution with a built-in speaker array that is simple to install.

ezRoom WallCore

WallCore offers all the features of in-ceiling models in a form factor that mounts to walls.

Juno

The amazing, all-in-one classroom audio system

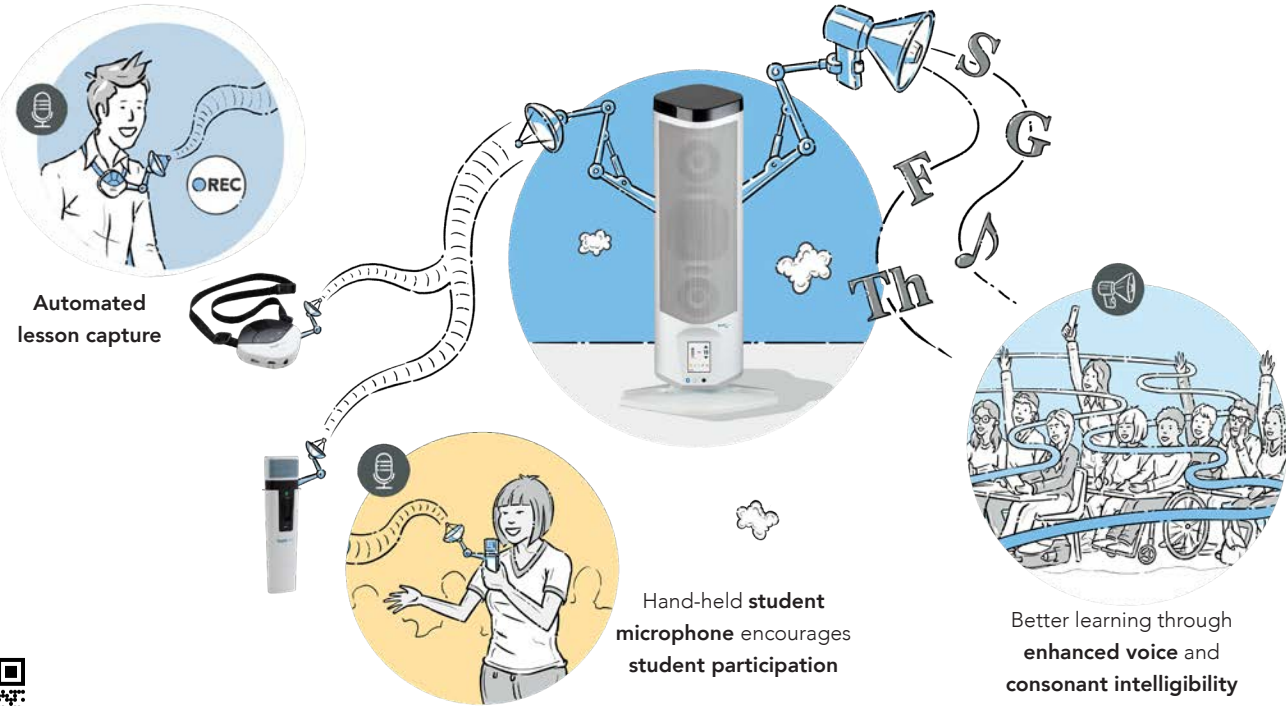

The towering standard in classroom sound quality, FrontRow Juno sets up in minutes and yet evenly fills your classroom with the kind of exciting, multi-layered stereo sound you'd expect from a much larger installed system. What's more, Juno is the only classroom audio platform with active feedback suppression and an intuitive touchscreen controller. Juno's intelligent digital platform connects you to exciting tools like automated lesson capture for remote learning and easy-to-use intercom.

Juno Connect™

Juno Connect™ is a scalable solution that can meet the needs of both your classroom and campus. When used with FrontRow Conductor™, Juno Connect enables campus communication functionality like intercom, paging, bell schedules and alerting. During an emergency, educators can speak directly with administrators or activate panic buttons using their smart microphones. Juno Connect lets technologists see, control, and manage not just one projector, but every AV device in the school. From automatic shut-down to bulb-life alerts, Juno Connect takes care of the details so they can focus on the big picture.

Features

LessonCam™ Classroom Camera

With LessonCam, instruction is dynamic and engaging for online learners. Teachers are no longer tethered to their computer's webcam. They can stand in front of a display or white board, pan to another part of the room, or zoom in for a closeup of a hands-on demonstration.

MyFrontRow App

Our MyFrontRow app is a simple solution for seamless classroom audio control and interactive display management. Some of the app features include, easy pairing of FrontRow microphones and Bluetooth devices, quick access to information about mic buttons and ClassLight colors, and easy control of the LessonCam classroom camera.

“I feel like I don't have to repeat directions multiple times, which saves valuable class time. Also, I don't have to spend so many hours during the week helping absent students catch up on what they missed. They can watch the video from that day and review the missed material quickly.”

Tanise Colvin
Eighth-grade language-arts teacher
Pleasant Valley Junior High School

Pro Digital

FrontRow's classic classroom audio solution

Pro Digital fills any classroom with sound, to ensure that the listener hears every nuance no matter where they are in the classroom. The Pro Digital is easy to install and use, making it perfect for classrooms that need a simple audio solution.

Features

Pendant microphone helps **reduce teacher vocal fatigue**

Hand-held **student microphone** encourages **student participation**

Better learning through **enhanced voice** and **consonant intelligibility**

Simple speaker installation

The Pro Digital can work with your existing speakers, or any FrontRow 2-4 speaker package. The receiver can be mounted to the wall or just set on a shelf. With support for two mics, and up to 3 additional media sources, it's the perfect solution for delivering instructional content in today's technology-rich classrooms.

I was amazed at the quality of speech that the Pro Digital sound amplification system provided for the students to hear. Many people only think of the system as an amplification tool, but the ability to clarify speech for children is just as important.

Lisa Meneghin
2nd Grade Teacher

Lyrik

Portable classroom audio

The Lyrik™ amplification solution is a small yet mighty portable system for instruction and audio media to be heard anywhere: in a classroom, outside on a sports field, or even online! The tower has an integrated rechargeable battery and can be connected to a computer or other auxiliary audio source either directly using cables or wirelessly using Bluetooth®.

“As a school that now has three FrontRow Lyrik System speakers, we are very pleased with these products. This product has many great features. It's lightweight, durable, portable, and has the ability to project across a large area while still providing a clear, crisp sound.”

Brian Wherry
American Academy
Lincoln Meadow

Features

Hand-held **student microphone** encourages **student participation**

Portable and battery powered
(Up to 8 hours per charge)

Better learning through **enhanced voice** and **consonant intelligibility**

Conductor

Flexible campus scheduling and communication

A robust IP-based control and school communications solution that covers your campus. Whether it's establishing a schedule for routine commands or preparing for disruptions – from late start days to true emergencies – Conductor empowers you to communicate clearly and to keep the situation under control without calling a tech to make changes.

Enhance emergency response

Conductor improves school-wide emergency communication and response with an array of dynamic capabilities:

- **Triggers emergency sequences**, such as lock-downs, with a single command.
- **Automates announcements** on campus and to off-campus emergency responders.
- **Controls doors, security, digital signage, AV device, HVAC, lighting** or any other IP-based device needed per your emergency response.
- **Teacher's mics can be programmed to be a silent panic button** to quickly alert the front office of any emergency.

Features

Paging and Intercom
Effortless communication is only a touch of a button or screen away.

Bells and Scheduling
Create as many bell schedules as you need with our easy-to-use interface.

Alerts
Customize and automate alerts to improve emergency response and safety.

Calendar
Quickly and easily build out your school's bell schedule.

Zoning
Broadcast communications or different bell schedules can be specified to targeted areas of your school.

“We have seven schools and our district office running FRONTROW's Conductor. We have implemented flexible zoning, coordinated emergency alerts and the ability to intercom with any room in the school.”

Stephanie Griffin
Director of Instructional Technology
Piedmont Unified School District

Audio and visual communications
made campus-wide

Bell schedule
adjustments made quickly and easily

Attention!

Attention! enables announcements, bells, and alerts to be delivered as both audio and video simultaneously to FrontRow™ audio solutions and Mimio® or Clevertouch® displays.
